

The image is a vertical banner for a welding portfolio. The top half has a background of blurred, colorful welds in shades of blue, green, and yellow. A black rounded rectangle in the center contains the text 'See My Work' in white. The bottom half is black with the text 'Education', 'and Work', and 'xperience' in large, bold, yellow letters, partially cut off at the bottom.

A yellow icon of a graduation cap (mortarboard) with a tassel, centered on the slide.

SLCC - June 2017 to May 2019

Completed Gen Ed courses for an engineering degree before transferring to Weber state and switching to Computer Science.

Weber State University

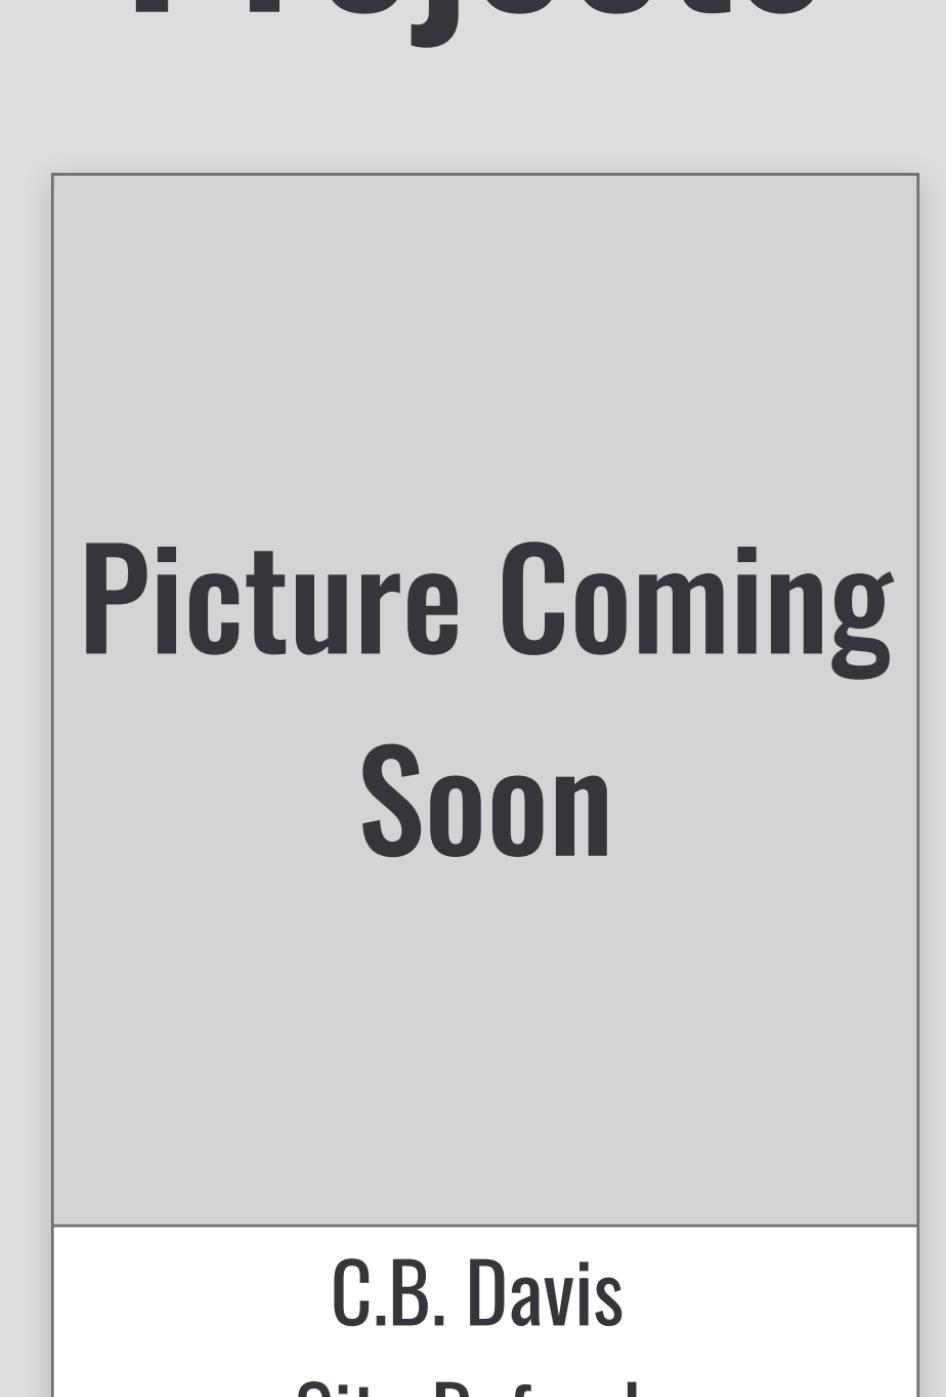

noted to the Vendor Non-conformity specialist in charge of the receiving department and handled any issues with incoming product.

**Larsen Auto Repair -
Apprentice - May 2015 to May 2016**

responsible for the maintenance and recall of AWP's equipment in Utah. That includes mechanical and cosmetic repairs to diesel trucks, trailers, and solar equipment. Other duties include welding and fabricating, and the managing of other shop personnel.

Recent Projects

C.B. Davis. They are a traffic control supplier. This project is using Bootstrap and Sass.

SLCC - June 2017 to May 2019

Completed Gen Ed courses for an engineering degree before transferring to Weber state and switching to Computer Science.

AWP Safety - Shop Foreman - June 2019 to Present

I'm responsible for the maintenance and repair for all of AWP's equipment in Utah. That includes mechanical and cosmetic repairs to diesel trucks, trailers, and solar equipment. Other duties include welding and fabricating and the managing of other shop personnel.

Weber State University - January 2020 to Present

Associate of Applied Science - Completed Fall 2021
Certificate of Proficiency - Programming Essentials - Fall 2021
Major - Computer Science, Minor - Web and UX - Anticipated Graduation in Spring 2024

Industrial Supply - Various Positions - June 2016 to May 2019

Initially trained as a picker, I was promoted to the Returns department and could fill any roll in the warehouse if needed. Eventually promoted to the Vendor Non-conformity Specialist in charge of the receiving department and handled any issues with incoming product.

Larsen Auto Repair - Apprentice - May 2015 to May 2016

I'm responsible for the maintenance and repair for all of AWP's equipment in Utah. That includes mechanical and cosmetic repairs to diesel trucks, trailers, and solar equipment. Other duties include welding and fabricating and the managing of other shop personnel.

About Me

Hello There

I'm a Computer Science and Web/UX student at Weber State University. In addition, I'm also a mechanic and a welder. I have been doing mechanics and working on computers my whole life.

I enjoy programming, and playing video games. When I'm not around my computer, I'm normally under the hood of my jeep finding something else to tinker with or out playing in the mountains in said jeep.

Multiplayer Boggle Game

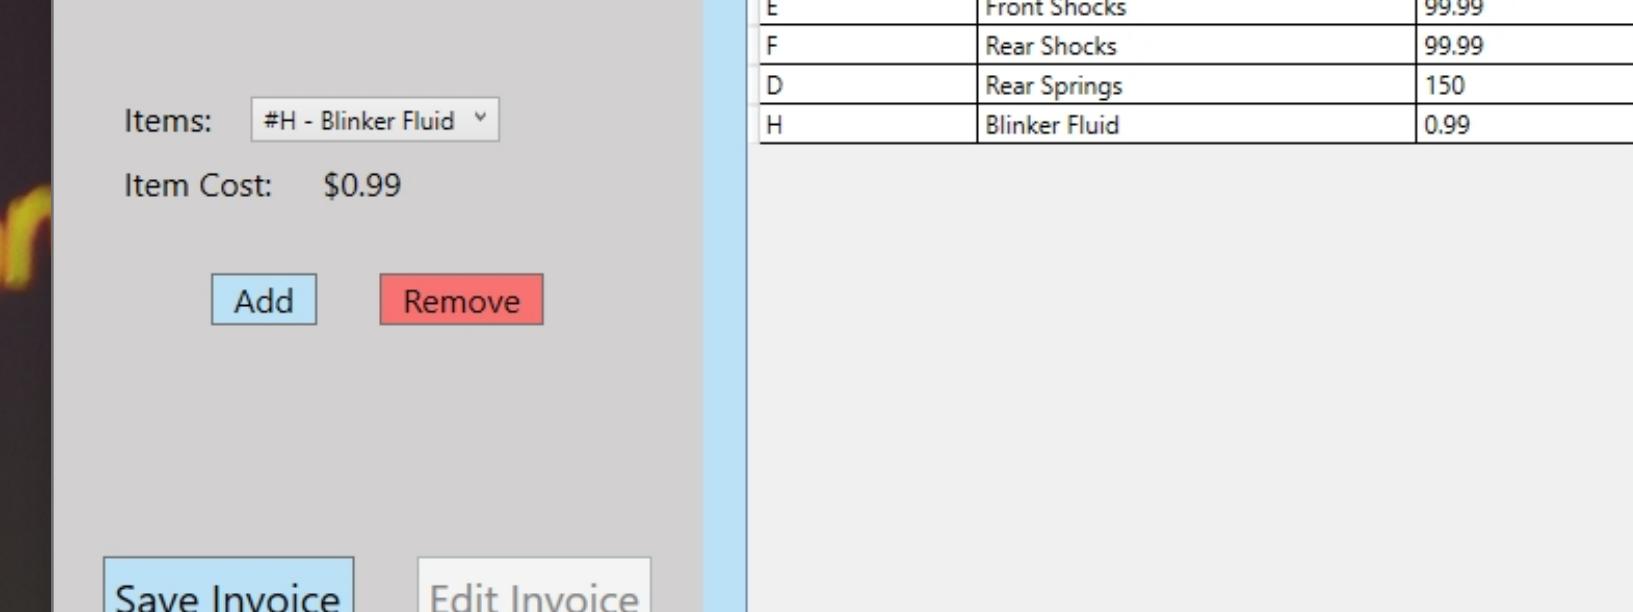

A small project with other students that created a multiplayer boggle game using a browser, server, and a database. Created using React.js.

Programming Projects

Personal Website

A small personal website using Python and Django

Car Parts Inventory/Invoice System

A inventory and invoicing system for a car parts store. Created in C# with a GUI and a basic database.

Welding & Mechanic Projects

My Jeep

A junkyard special. Only thing functional was the engine and transmission.

Sign Rack

A sign rack I built that currently holds several thousand pounds of signs for AWP Safety.
